

# About Us

## FACILITY

- 92,000 square feet of production space
- State-of-the-art facility
- Fully automated CNC shop

As a leading manufacturer of horizontal and vertical sidewall insulation systems for heated and cold-storage applications, Global Therm features a highly-trained and dedicated professional staff. Providing custom design and engineering solutions, Global Therm provides systems which meet your exact needs and specifications. Unlike conventional less-effective methods, Global Therm manufactures each insulation panel specifically to the precise tank height required, providing maximum insulation value.

You can always rely on Global Therm to design, engineer and install the most advanced and effective solution available. Employing our modern manufacturing facilities, capabilities and equipment, and our exceptionally trained professional staff, Global Therm adheres to stringent guidelines to ensure consistent quality assurance and customer satisfaction. Global Therm produces systems that routinely meet or exceed customers' expectations.
